

zomato

Zomato is not just a food delivery app, it delivers happiness whenever and wherever you want! For Zomato, customer comes first before anything else.

THEIR WISHLIST

Deadlines are for everyone, let's be honest, late deliveries can be the reason for someone's sorrow, so only thing that Zomato wished for was Zomato can't be late. Setting up their brand identity and serving the audience with a heart-warming message was the brief we were given. So we became the Santa for them and fulfilled every wish they had!

ZOMATO ALL THE WAY!

One cold winter Christmas night, everyone was waiting for the Santa and their precious gifts to get delivered soon. Alas! Due to unexpected turn of events, SANTA WAS LATE!

Santa is synonymous to happiness for people. So is Zomato!

So, covering it up for the late deliveries by Santa, comes Zomato. What we covered for Zomato:

- Delivering even late at night as the customer comes first.
- On time, swift deliveries so that you don't have to wait.
- Delivering happiness and putting up a smile on one's face.

HOW IT ENDED UP!

The jingle hit the right chords in the people's hearts as they showered us with their love and support.
